Massachusetts Rifle Assoc., Inc.
290 Rear Salem Street
Woburn, MA 01801

Attn: Board of Directors

Gentlemen:

I have been diagnosed as having terminal cancer and have been through both extensive radiation and chemotherapy treatment which has failed to stop the spread of the disease. The doctors have ruled out any further treatment as of no benefit and predict that I can only survive for 6 months to one year if I am lucky.

I am not in agreement with this prediction but being of a practical mind am in the process of settling those affairs I can expeditiously.

Therefore, I herewith present the Mass. Rifle Assoc. a check for \$1,300. \$1000 to be used only for any needs of the Junior or Youth shooting program and \$300 for a collation for the club members celebrating the spreading of my ashes on the 200 yard range as agreed by the Board of Directors and the City of Woburn approximately 8 to 10 years ago. In addition, I wish to donate for the club museum, the .58 caliber muzzleloading Commemorative rifle, serial #6180 I purchased as General Chairman of the Centennial Committee, as well as bullet molds for the same and other memorabilia.

I had intended to bring copies of the letter from the Board of Directors agreeing to spread my ashes on the 200 yard range, as well as the letter from Edward George, at that time attorney for the club, indicating that the City of Woburn had agreed also. However, I recently sold my house and moved into an apartment in a retirement and assisted living and nursing home, during which time these letters became lost. You would have copies in your Directors meeting records.

At the time the Board originally agreed to grant my wish, one of the directors suggested that they would blow my ashes out of a muzzleloading cannon and I agreed that that would be a great idea and I would be pleased if you could do so when the time comes.

My son, James M. Guyer of 40 Woodstone Rd. in Northborough, MA will advise you when I die and will deliver the ashes at the appropriate time. Hopefully in 14 years when I will be 100 years old and thumbing my nose at the medical profession.

Sincerely,

N. E. Guyer
